

# ***CALL FOR PAPERS***

## **Geo-Environmental Engineering 2006, 3-4 April 2006, Kyoto, Japan**

Organized by:

Kyoto University, Japan,

Seoul National University, Korea

Korea Institute of Construction Technology, Korea

University Joseph Fourier, France

Under the auspice of ISSMGE, IGS, JSPS, CNRS and JGS (not yet approved)

=====

Dear Colleague:

On behalf of the organizing committee, we are pleased to inform you of the Geo-Environmental Engineering 2006 (6th Japan-Korea-France Joint Seminar on Geoenvironmental Engineering). The meeting will take place from 3 - 4 April 2006 at the Fukui Institute for Fundamental Chemistry, Kyoto University, Kyoto Japan. Last five seminars have been held as the Joint work between Japan and Korea, but this sixth seminar will be held also with the additional cooperation of France, where a first Workshop "Hydro-physico-Mechanics of Landfills" was organized in Grenoble in 2005.

The deadline of paper abstract is November 30 to the organizing committee. After the reviewing, each author will be informed the review result by the December 15. The full paper shall be submitted by January 31, 2006. Conference papers will be peer reviewed by experts of Geo-Environmental Engineering, and if selected, will be published in the conference proceedings and will be available to delegates at the time of registration.

The early April is the full bloom of cherry blossoms in Kyoto. Every participant will be able to enjoy the wonderful landscape in Kyoto during the conference.

Best regards,

Chairpersons of Organizing Committee:

Masashi Kamon, Kyoto University, Japan

Junboun Park, Seoul National University, Korea

Ha-Ik Chung, Korea Institute of Construction Technology, Korea

Jean-Pierre Gourc, University Joseph Fourier, France

## **Geo-Environmental Engineering 2006**

=====

### **INTRODUCTION**

The conference provides an international forum to discuss the problems facing the public and private sectors, the engineering and scientific communities, in terms of the waste management and remediation of contaminated lands, and relating topics.

The conference venue is the Professor Kenichi Fukui Memorial Hall awarded by Nobel Prize, who is a Professor of Emeritus in Kyoto University.

The main goal of Geo-Environmental Engineering 2006 is to bring together international information, experience and research in order to give the conference participants a greater knowledge and ability to help revitalize their communities.

### **CONFERENCE TOPICS**

Waste management  
Landfill liner and cover  
Geotechnical reuse of solid waste  
Environmental assessment  
Risk assessment and management  
Monitoring of contaminated sites  
Cleanup technologies and ground improvement  
Lessons from the field and case studies

### **CALL FOR PAPERS**

Papers are invited on the topics outlined above. Abstracts of no more than 200 words should be submitted by email by December 10, 2005 to the conference secretariat at:

[inui@mbox.kudpc.kyoto-u.ac.jp](mailto:inui@mbox.kudpc.kyoto-u.ac.jp)

Please insert Geo-Environmental Engineering 2006 at the top line and include your name, full address and conference topic in the main body of your email. In the abstract, every author can include a figure and/or table, if necessary. After acceptance of the abstract, the paper instructions will be informed of each paper author.

### **CONFERENCE SECRETARIAT**
